Section 2 - Composition, Information on Ingredients

Section 3 - Hazards Identification
EMERGENCY OVERVIEW
Danger! May cause allergic skin reaction. Harmful if swallowed, inhaled, or absorbed through the skin. Causes burns by all exposure routes. At ordinary temperatures, iodine sublimes to a violet gas with a characteristic, irritating odor. Target Organs: Respiratory system, eyes, thyroid, skin.

## Potential Health Effects

Eye: Causes severe eye irritation. May cause eye burns. Vapors cause eye irritation.
Harmful if absorbed through the skin. May cause severe irritation and possible burns. Rare instances of allergic Skin: reactions to topical iodine solutions characterized by fever and generalized skin eruptions have lead to death. At least one death after topical application of a strong iodine tincture to one-third of the body has been recorded.
Ingestion: Harmful if swallowed. May cause burns to the digestive tract.
Inhalation:
Harmful if inhaled. Causes severe respiratory tract irritation. Extreme exposures could result in a build-up of fluid in the lungs (pulmonary edema) that might be fatal in severe cases.
Chronic exposure can lead to iodism characterized by headache, excess salivation, nasal discharge, conjunctivitis, laryngitis, bronchitis, stomatitis, enlarged submaxillary glands, and skin rashes. Chronic ingestion of

Chronic: iodides during pregnancy has resulted in fetal death, severe goiter, and cretinoid appearance of the newborn. Chronic exposure can affect thyroid function. Some references (e.g. Dreisbach's Handbook) say that iodine and iodine compounds are potent sensitizers and that repeated contact may cause sensitivity dermatitis, laryngeal edema, serum sickness with lymph node enlargement, and joint pain and swelling.

Section 4 - First Aid Measures
Eyes:
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical aid
immediately.
Skin:
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical aid immediately. Wash clothing before reuse.

Ingestion:

Inhalation POISON material. If swallowed, get medical aid immediately. Only induce vomiting if directed to do so by medical personnel. Never give anything by mouth to an unconscious person.
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

Notes to
Physician:

## Section 5 - Fire Fighting Measures

General Information:

Extinguishing Media:

Substance is noncombustible; use agent most appropriate to extinguish surrounding fire.
Temperature: Not applicable.
Flash Point: Not applicable.
Explosion Limits: Not available
Lower:
Explosion Limits: Not available
Upper:
NFPA Rating: health: 3; flammability: 0; instability: 0;

## Section 6 - Accidental Release Measures

General
Information:
Use proper personal protective equipment as indicated in Section 8.
Vacuum or sweep up material and place into a suitable disposal container. Avoid runoff into storm sewers
Spills/Leaks: and ditches which lead to waterways. Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation.

Section 7 - Handling and Storage
Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Use with adequate Handling: ventilation. Minimize dust generation and accumulation. Do not get in eyes, on skin, or on clothing. Keep container tightly closed. Do not ingest or inhale.
Storage: Store in a cool, dry place. Store in a tightly closed container.
Section 8 - Exposure Controls, Personal Protection

OSHA Vacated PELs: Iodine: None listed
Engineering Controls:
Use process enclosure, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

## Exposure Limits

Personal Protective Equipment
Eyes:
Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate gloves to prevent skin exposure.
Clothing: Wear appropriate protective clothing to prevent skin exposure. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a Respirators: NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Section 9 - Physical and Chemical Properties
Physical State: Solid
Color: black-violet
Odor: iodine-like
pH : Not available
Vapor Pressure: $0.3 \mathrm{~mm} \mathrm{Hg} @ 20 \mathrm{deg} \mathrm{C}$
Vapor Density: 8.8 (air=1)
Evaporation Rate: Not available
Viscosity: Not available
Boiling Point: 184 deg C ( $363.20^{\circ} \mathrm{F}$ )
Freezing/Melting Point: $113 \mathrm{deg} \mathrm{C}\left(235.40^{\circ} \mathrm{F}\right)$
Decomposition Temperature:
Solubility in water: $0.034 \mathrm{~g} / 100 \mathrm{ml} @ 25^{\circ} \mathrm{C}$
Specific Gravity/Density: 4.93
Molecular Formula: I2
Molecular Weight: 253.81
Section 10 - Stability and Reactivity

Chemical Stability:
Conditions to Avoid:
Incompatibilities with Other Materials

Hazardous Decomposition
Products
Hazardous Polymerization

Stable. Substance is sublimable, able to go directly from solid to vapor.
Dust generation, excess heat.
Active metals, ammonia, fluorine, liquid chlorine, acetaldehyde, acetylene, carbides, powdered aluminum.

Hydrogen iodide.
Will not occur.
Section 11 - Toxicological Information

RTECS\#: CAS\# 7553-56-2: NN1575000
RTECS:
CAS\# 7553-56-2: Oral, mouse: LD50 $=22 \mathrm{gm} / \mathrm{kg}$;
Oral, mouse: LD50 $=1000 \mathrm{mg} / \mathrm{kg}$;
LD50/LC50: Oral, rabbit: LD50 $=10 \mathrm{gm} / \mathrm{kg}$; Oral, rat: LD50 $=14 \mathrm{gm} / \mathrm{kg}$;

Other: Oral LDLo human: $28 \mathrm{mg} / \mathrm{kg}$ (RTECS).
Carcinogenicity: Iodine - Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65.
Other:
See actual entry in RTECS for complete information.
Section 12 - Ecological Information
Not available
Section 13 - Disposal Considerations
Dispose of in a manner consistent with federal, state, and local regulations.
Section 14 - Transport Information
US DOT
Shipping Name: CORROSIVE SOLIDS, TOXIC, N.O.S.
Hazard Class: 8
UN Number: UN2923
Packing Group: II
Canada TDG

Shipping Name: CORROSIVE SOLID, TOXIC, N.O.S.* Hazard Class: 8
UN Number: UN2923
Packing Group: II

## Section 15 - Regulatory Information

## European/International Regulations

European Labeling in Accordance with EC Directives
Hazard Symbols: XN N
Risk Phrases:
R 20/21 Harmful by inhalation and in contact with skin.
R 50 Very toxic to aquatic organisms.
Safety Phrases:
S 23 Do not inhale gas/fumes/vapour/spray.
S 25 Avoid contact with eyes.
S 61 Avoid release to the environment. Refer to special instructions/safety data sheets.
WGK (Water Danger/Protection)
CAS\# 7553-56-2: 1

## Canada

CAS\# 7553-56-2 is listed on Canada's DSL List Canadian WHMIS Classifications: E, D1B

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all of the information required by those regulations.
CAS\# 7553-56-2 is listed on Canada's Ingredient Disclosure List
US Federal
TSCA
CAS\# 7553-56-2 is listed on the TSCA
Inventory.
Section 16 - Other Information
MSDS Creation Date: 12/12/1997
Revision \#12 Date 7/20/2009

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantibility or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall the company be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential, or exemplary damages howsoever arising, even if the company has been advised of the possibility of such damages.
