

MSDS No.: HH0188  
Revision Date: November 4, 2010  
Approved by: James A. Bertsch

MSDS No.: HH0188

**Chemical Product and Company Information**

**Section 1** **HYDROGEN PEROXIDE, 30%, STABILIZED**

Synonyms: Hydrogen Dioxide

CHEMREC 24 Hour Emergency Phone Number (800) 424-9300

**Section 2** **Composition / Information on Ingredients**

| Chemical Name     | CAS #     | %     | TLV Units (ACGIH 2001) |
|-------------------|-----------|-------|------------------------|
| Hydrogen peroxide | 7722-84-1 | 30%   | TWA: 1 ppm             |
| Water             | 7732-18-5 | 70%   | None established.      |
| Acetanilide       | 103-84-4  | 0.05% | None established.      |

**Section 3** **Hazards Identification**

Emergency Overview

**DANGER! STRONG OXIDIZER!**  
**HARMFUL IF SWALLOWED. CAUSES BURNS.**

Corrosive. Avoid contact with skin, eyes and clothing. Avoid contamination from any source. Do not alter or tamper with venting mechanism.

Target organs: Respiratory and gastrointestinal systems, skin, eyes.

|            | 0 = Minimal | 1 = Slight | 2 = Moderate | 3 = Serious | 4 = Severe |
|------------|-------------|------------|--------------|-------------|------------|
| Health     |             |            |              |             |            |
| Fire       |             |            |              |             |            |
| Reactivity |             |            |              |             |            |
| Contact    |             |            |              |             |            |

**HMIS \***

**Section 4** **First Aid Measures**

**INGESTION:** Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

**INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

**EYE CONTACT:** Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

**SKIN CONTACT:** Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

**Section 5** **Fire Fighting Measures**

**General Information:** In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool. Use water only to fight fires in which this material is involved. Apply vast amounts for cooling and dilution. This product is a strong oxidizer which may release oxygen and promote the combustion of flammable materials. Spontaneous combustion can occur if allowed to remain in contact with oxidizable materials. Drying of product on clothing or combustible material may cause fire. Do not allow temperature of storage to rise above 100°F.

**Extinguishing Media:** Water.

**Flash Point:** N/A

**Autoignition temperature:** N/A

**Explosion Limits:** Lower: N/A Upper: N/A

**Section 6** **Accidental Release Measures**

Use proper personal protective equipment as indicated in Section 8. Remove all sources of ignition. Provide adequate ventilation. Recover for use if not contaminated. Dilute with water and absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water. Avoid runoff into storm sewers and ditches which lead to waterways.

(2004 EMERGENCY RESPONSE GUIDEBOOK, RSPA P 5800.9, GUIDE PAGE NO. 140)

|              |
|--------------|
| 0 = Minimal  |
| 1 = Slight   |
| 2 = Moderate |
| 3 = Serious  |
| 4 = Severe   |

**Section 7** **Handling & Storage**

Read label on container before using. Do not wear contact lenses when working with chemicals. Keep container tightly closed. For laboratory use only. Not for drug, food or household use. Keep out of reach of children.

**Handling:** Use with adequate ventilation. Avoid contact with eyes, skin and clothing. Avoid ingestion. Do not inhale vapors, spray or mist. Wash thoroughly after handling. Remove and wash clothing before reuse.

**Storage:** Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources.

**Section 8** **Exposure Controls / Personal Protection**

**Engineering controls:** Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.

**Respiratory protection:** Use a chemical fume hood and/or wear a NIOSH/MSHA-approved respirator.

**Section 9** **Physical & Chemical Properties**

**Physical state:** Liquid.

**Appearance:** Clear, colorless.

**Odor:** Pungent odor.

**pH:** 0-3

**Vapor pressure (mm Hg):** 18-27 @ 30°C (86°F)

**Vapor Density (Air = 1):** 0.8 - 1.0 (calculated)

**Evaporation rate (Butyl acetate = 1):** > 1

**Viscosity:** N/A

**Boiling point:** 104-113°C (220-237°F)

**Freezing / Melting point:** -26 to -52°C (-18 to -62°F)

**Decomposition temperature:** N/A

**Solubility:** Complete

**Specific gravity (H<sub>2</sub>O = 1):** 1.1-1.2

**Percent volatile (%):** 50-70% @ 21°C (70°F)

**Molecular formula:** Mixture.

**Molecular weight:** Mixture.

**Section 10** **Stability & Reactivity**

**Chemical stability:** Stable

**Conditions to avoid:** Excessive temperatures, heat, sparks, open flame and other sources of ignition. Contact with combustible materials may result in spontaneous combustion.

**Incompatibilities with other materials:** Acids, bases, metals, metal salts, reducing agents, organic materials, alkalies, dust and dirt contaminants, flammable substances, oxidizable materials.

**Hazardous decomposition products:** Oxygen, which will promote the combustion of flammable material.

**Section 11** **Toxicological Information**

**Effects of overexposure:** EYES: Expected to cause irritation and/or burns. Could cause corneal damage which may occur several days later. SKIN: Expected to cause irritation and/or burns. As the concentration or time of exposure increases, the extent of damage increases. INHALATION: Expected to be irritating to respiratory tract. INGESTION: Expected to cause burns to the gastrointestinal tract. Medical conditions which may be aggravated by exposure include conjunctivitis of the eye, dermatitis of the skin, asthma and respiratory diseases.

ORL-RAT LD50: 800 mg/kg (50% hydrogen peroxide)

**Section 12** **Ecological Information**

Data not yet available.

**Section 13** **Disposal Considerations**

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

**Section 14** **Transport Information**

UN/NA number: UN2014

Shipping name: Hydrogen peroxide, aqueous solutions

Hazard class: 5.1 (8)

Packing group: II

Exceptions: No exceptions

**Section 15** **Regulatory Information**

TSCA-listed. EINECS-listed (231-765-0), RCRA code D001, D002.

**Section 16** **Additional Information**

The information contained herein is furnished without warranty of any kind. Employers should use this information only as a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use of these materials and the safety and health of employees. \* Hazardous Materials Industrial Standards.
