counselor.

WINTER 2014:

◆ **BIO 150 in Costa Rica with Biology Professor Craig Stettner (Jan. 2-12)**

Study tropical ecosystems on site with a specific focus on elements of the tropical rainforests that most interest you. Explore primary and secondary rainforests, tropical seasonal forests and mangrove communities. Living in an isolated biological field stations for five days with veteran Costa Rican naturalist will give you the knowledge and experience to speak with authority on tropical rainforests when you have finished the course.

Each student will have a field project of his or her own choosing, which will be approved by an instructor before the trip and developed with the instructor's assistance, if requested.

*For additional information, contact **Craig Stettner** at cstettne@harpercollege.edu*

SPRING BREAK 2014:

◆ **Honors Program Trip to Japan with English Professor Andrew Wilson**

Students must be enrolled in the Honors Program to participate.

*For additional information, contact **John Garcia** at jgarcia@harpercollege.edu or **Alicia Tomasian** at atomasia@harpercollege.edu*

SPRING 2014:

◆ **SOC 205 in London with Sociology Professor James Gramlich (May 17-30)**

Understand the impact of place by studying contemporary social problems in culturally vibrant London. After a spring semester of field work in Chicago, you'll spend two weeks exploring the same broad set of issues in London. Emphasis will be placed on the impact of institutions, history, and other aspects of place as you consider the process of social change and its impact on people's lives in these two great cities.

*For additional information, contact **James Gramlich** at jgramlich@harpercollege.edu*

◆ **ART 105 in Paris with Professors Karen Patterson and Stephany Rimland (May 20-June 2)**

Experience art in one of the greatest artistic and cultural centers of the world. Stroll through history in the galleries of the Louvre Museum, saturate your senses in the kaleidoscope-filled Chartres Cathedral, and revel at the reflections in Monet's famous water lily pond at Giverny.
